

Cosmetics

At JAAS Systems our goal is to provide you with a total system to run your business profitably. We understand the strict demands placed upon you, as a cosmetic manufacturer, by your customers and by federal regulations. JAAS Advanced Manufacturing Software (JAMS) for Acumatica was created by experts with hundreds of years of combined experience in the manufacturing industry. This knowledge, combined with new cloud technology from Acumatica, delivers a feature-rich, fully integrated manufacturing, distribution, customer management, project management, and accounting solution.

Our solution provides cosmetics manufacturers an end-to-end manufacturing ERP solution:

- ✓ Ensure Quality Management and Meet Industry Standards
- ✓ Document Management and Workflow Management
- ✓ Customer Management for your sales and marketing efforts as well as service and support
- ✓ Depth and control from the beginning; from Bill of Material revision control through our robust shop floor capabilities including lot tracking with expiration date.

As a cosmetics manufacturer, you must adhere to strict industry standards, set forth by the FDA through the U.S. Food, Drug and Cosmetic Act, to ensure the quality of your products. These regulations make it imperative that you improve visibility by using comprehensive end-to-end cosmetics software. You need a powerful business solution which combines the flexibility and scalability you desire to grow your company profitability by optimizing your most important resources, all while fulfilling accelerated market demands; thus making JAAS Systems and JAMS a compelling solution.
