

Food and Beverage

At JAAS Systems our goal is to provide you with a total system to run your business profitably. We understand the strict demands placed upon you, as a food and beverage manufacturer, by your customers and by federal regulations. JAAS Advanced Manufacturing Software (JAMS) for Acumatica was created by experts with hundreds of years of combined experience in the manufacturing industry. This knowledge, combined with new cloud technology from Acumatica, delivers a feature-rich, fully integrated manufacturing, distribution, customer management, project management, and accounting solution.

Our solution provides food and beverage manufacturers an end-to-end manufacturing ERP solution:

- ✓ Ensure Quality, Protect Workers and Meet Industry Standards
- ✓ Document Management, Quality Management, and Workflow Management
- ✓ Customer Management for your sales and marketing efforts as well as service and support
- ✓ Depth and control from the beginning; from Bill of Material revision control through our robust shop floor capabilities including farm to table lot traceability with expiration date

As food and beverage manufacturers, you must meet strict industry standards to ensure quality and protect workers. You have many regulations set forth by the FDA and the GFSI to which you must adhere; thus making it imperative you improve visibility using comprehensive end-to-end food and beverage software. You need a powerful business solution which combines the flexibility and scalability you desire to grow your company profitability by optimizing your most important resources; thus making JAAS Systems and JAMS a compelling solution.
