

Quoting & Estimating

JAMS
JAAS Advanced Manufacturing Software

The JAMS Quoting & Estimating module provides your organization with the tools to build an estimate and generate a quote for your customers.

The Estimator screen is used to build and show costs for estimates.

The image shows two overlapping software windows. The top window is titled 'Estimator (AM.Q15.00)'. It features a menu bar with 'Actions' and 'Customize', and a toolbar. The main area contains several input fields: 'Inventory ID: PN-2000', 'Eff Date: 3/17/2010', and 'Site: COL'. Below these are fields for 'Estimate ID: 0000000003', 'Revision:', 'Eff Start Date: 3/11/2010', and 'Eff End Date: 6/6/2010'. There is also an 'Imager Estimate' button. The 'Operation' section includes 'Oper Nbr: 00010' and 'Molding'. A tabbed interface at the bottom shows 'Materials', 'Work Center', 'Steps', 'Tools', 'Overhead', 'SPC', and 'Customer'. The 'Work Center' tab is active, showing 'Work Center: ML100' and 'Molding'. A tree view on the left lists components like 'ML100/Molding', 'BARREL', 'CLIP ASSY', 'INK', 'FB100/Cut and Weld', 'BASE101', 'SH-1000', 'COLOR', 'ASSMBY/Final Build', 'WRAP', and 'RING'. The bottom window is titled 'Generate Quote (AM.Q50.00)'. It has a similar menu and toolbar. It contains fields for 'Estimate ID: 0000000003', 'Order Type: Q', 'Company ID: 0010', 'Customer: CT0100', 'Ship To: DEFAULT', 'Ship Via: FED EX', 'Inventory ID: PN-2000', 'Site: COL', 'Qty Ordered: 5.00 EA', 'Request Date: 6/11/2010', and 'Promise Date: 6/11/2010'. At the bottom are 'Generate' and 'Cancel' buttons. A status bar at the very bottom shows 'BAS INS 0010 SYSADMIN 3/17/2010'.

Benefits:

Creates estimates for new or existing items and displays the cost of the estimates

Integrates with Microsoft Dynamics® SL Order Management to create quotes for your customers

Prints quotes directly from estimator with quick quote functionality

Estimates can be converted into bills of material, production orders and/or another estimate

Automatic revision tracking of estimates

Creates a quote based on the estimates.

“When Manufacturing is Your Business™”

Quoting & Estimating Module

- Estimate Revision Control
- Reference Designators
- Unit Cost Analysis
- Multi-Site
- Flexible Copy Estimate Options
- Supports Multiple Costing Methods
- Effective/Expiration Dates
- Create Estimate Based on Existing BOM
- Define Variable and Fixed Overheads
- Customer Project and Task Assignment
- Estimated Items May or May Not Exist in Dynamics® SL Inventory
- Attach Images/Documents *with JAMS View Module

Converts estimates into bills of material and/or production orders.

Category	Sub-Category	Value
Labor	Fixed:	10.00
	Variable:	600.00
Overhead	Fixed:	4.00
	Variable:	500.20
Machine		0.00
Materials		2104.60
Unit Cost:		16.09
Total Cost:		3218.80

Displays the cost breakdown of estimates.

About JAMS

JAMS is a series of manufacturing modules that directly integrates with Microsoft Dynamics® SL. Designed and built around Microsoft SQL Server, the system accommodates powerful reporting and customer inquiry capabilities. JAMS provides your company with detailed visibility into the manufacturing functions of your business. For more information about JAMS please visit www.jaas.net.
